SUMMARY

A passionate and experienced Full Stack Developer with a deep love for crafting innovative and efficient web solutions. I thrive on turning ideas into reality through code and am constantly seeking new challenges to expand my skill set.

SKILLS

Languages: HTML,CSS,JavaScript,Java

Technologies: React.js, Express.js, MongoDB ,Node.js, React Native, Firebase

EXPERIENCE

Jan/2024-Present | **Full Stack Developer Intern** | **GLOSITY**

- Created and integrated frontend and backend APIs for candidate shortlisting,Company page and opportunity page. (**MERN**)
- Built and integrated **asynchronous dropdown** libraries for candidate cards and folder structures, streamlining shortlisting and organization processes.
- Utilized **Next.js** to design and deploy a comprehensive web platform for the ICamp 2024 event.
- Enhanced User Interface with Dynamic modals for candidate shortlisting, improving user interaction and workflow efficiency.

FREELANCE

January,2024 | **React Developer** | **UPWORK**

- Implemented Tailwind CSS to create visually appealing, responsive, and consistent user interfaces across multiple pages and components.
- Utilized **MongoDB**, **Express**, **React**, and **Node.js** to create robust and scalable web applications, ensuring efficient data management and seamless user interactions.
- Suggested Future Improvements and ways to implement them.

PROJECTS

VKMEDIA Webapp   **Link**

- VKMedia isn't just a social media platform.
- it's a testament to innovation and connectivity using **MERN** and **Cloudinary.**
- As the driving force behind VKMedia, I've successfully created a space where individuals converge, share, and build digital connections

Vk Furniture Webapp   **Link**

- VKFurniture is merely an online furniture store.
- It's a testament to my commitment to delivering excellence in the digital marketplace using **MERN** and **Firebase**.
- By creating a platform that seamlessly merges style, functionality, and convenience for users.

VkFoods Original   **Link**

- Architected and implemented the VKFood platform using the **MERN** stack, providing users with a seamless and efficient online food ordering experience.
- Utilized **Tailwind** CSS to design a responsive, user-friendly interface, ensuring consistent and visually appealing layouts across all devices.
- Incorporated **Cloudinary** to manage and optimize food images, ensuring fast load times and high-quality visuals, enhancing the overall user experience.

EDUCATION

2020 - 2024 | **Silicon University, Bhubaneswar** | **B.Tech**
Computer Science And Engineering

2018 - 2020 | **Stewart School, Bhubaneswar** | **School**
ISC XII
